ROGERS'**GLAD****GARDENS****W. H. ROGERS**

GREENLAWN, LONG ISLAND, NEW YORK

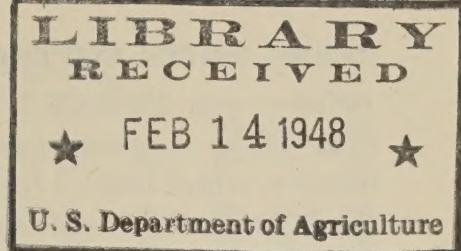

Spring 1949

I wish, first of all, to thank my many customers of past years for the good orders sent me as well as those who have already ordered the miniatures and small flowering varieties from my special list mailed earlier this season. I knew there was increasing interest in these but had not anticipated so many fine orders as I have already received. I see no reason to take up catalog space with testimonials, which would not be given anyway unless they were favorable, and the best way to find out quality of bulbs sent and treatment given customers is to order yourself.

So without further remarks, except for repeating my business terms, guarantee, etc., I will get down to the business of telling you what I have to offer and let you be your own judge as to what varieties you wish to select.

I will, however, repeat from my last year's catalog my remarks on purchases of bulblets:

In recent years I have limited my addition of new varieties to the purchase of bulblets whenever possible and my success by this method has been very gratifying. In this way your new additions are purchased at the lowest possible cost. You can purchase varieties which you otherwise might consider too expensive and you will be surprised how quickly a few bulblets will get you started. By the purchase of bulblets you should not expect too many blooms the first year but many times you are happily surprised. Neither are you going to get the size spike you will get from the larger bulb the next year. Even though I have just suggested the purchase of bulblets, I feel that I should also give a word of caution. If handled properly some varieties will germinate almost 100 per cent, while other varieties will germinate a much smaller percentage and therefore it is not possible for me to make any guarantee as to germination. And furthermore not all varieties produce large bulblets and neither is it necessary to have large bulblets to get good germination, but they should be good, plump, mature ones. I will always send good mature ones and the largest available. In my opinion, to get best results they should be peeled or cracked before planting and then planted right away before they become dry or hard. I also believe that better germination is obtained if not planted until the ground becomes warm enough to induce prompt germination.

TERMS, PRICES AND SHIPMENT — On all orders for \$5.00, or less, cash with order — over \$5.00, 25 % cash with order and balance before shipment. Minimum order \$2.50. I cannot accept orders for less than the smallest unit quoted. For instance, where listed 2 for 30, one cannot be had for 15. Five bulbs can be had at the 10 rate and 50 bulblets at the 100 rate only when the price is \$1.00 or more per 100. Transportation to points within the United States will be prepaid when shipment is made at my option as to parcel post or express. Parcel post shipments cannot be made safely until spring but if shipment is desired before then, I will ship express immediately, charges collect, and include extras to help in paying such charges. As is the custom of all shippers, I will include extras anyway and in place of many complicated, discount offers, I will give additional overcount or extras depending on size of order when cash in full accompanies the order. You might suggest which you prefer. You may be sure these extras will fully cover these discounts and then some.

SUBSTITUTION — All stock offered subject to prior sale. Remember I sell only the bulbs I have grown myself and therefore supply is limited and on some varieties quite limited, so you should order early. I will not substitute either size or variety unless you so direct and will refund immediately on any item I cannot supply. If you wish substitution, I would appreciate your second choice with your order.

GUARANTEE — It is my intention to send out only good, clean, healthy bulbs and true to name. I make no guarantee as to growth and will in no way be responsible for the crop. If upon receipt of bulbs, you find them unsatisfactory, return at my expense and I will cheerfully refund the full purchase price. And furthermore if you later find any not true to name, I am ready to replace, refund, or make adjustment.

INSPECTION — My glads have been inspected and I hold Certificate No. 2602 issued by New York State Department of Agriculture and Markets.

	large 1 1/4" & up per 10		medium 3/4" - 1 1/4" per 10		per 100

small 3-.25 (10.75)						

MIXED BULBS

A great many people prefer to buy mixed or unlabeled bulbs instead of bothering with all the various names. I plant only bulbs of which I know the names. I have no mixed bulbs except as I mix them for you and you are therefore sure of a wide range of color and varieties in my mixtures. I have arranged a number of different collections so that you may have quite a selection. These are the same bulbs you would buy if you ordered by name only at a much lower price since individual packing takes time and costs money.

In case you have a preference for certain colors I have arranged to offer 10 mixed bulbs, each bulb of a different variety, but all of the same general color in the following range—white and cream—yellow and orange—buff and pastel shades—all shades of red—salmon and pink—all shades of rose—lavender, purple, and blue—smoky and odd colors—and varieties all with very contrasting blotches. These mixtures are all priced at 75 cents each for 10 large bulbs and 10 mixtures or 100 bulbs for \$7.00. Since there are 9 different mixtures you could

have as many as 90 different varieties in an order for 100 bulbs if you wish and you would necessarily have to have at least one duplication. However you may omit any color you do not care for and have as many duplications as you wish.

I also offer mixtures containing various numbers of varieties, the mixtures containing a lesser number of varieties being a little cheaper, since it requires much less time to put 10 varieties into a mixture of 100 bulbs than to put in 90. These mixtures are not made up until your order is received. Remember the following are *all unlabeled* mixtures with my choice of varieties to be used which will depend on what varieties I have available at the time.

Please order by number—

1A—10 large bulbs—each a different variety—white & cream.....	.75
1B—10 medium bulbs—each a different variety—white & cream.....	.60
2A—10 large bulbs—each a different variety—yellow & orange.....	.75
2B—10 medium bulbs—each a different variety—yellow & orange.....	.60

11B—100 medium bulbs—wide assortment of colors—at least 35 varieties and not over 5 bulbs of any one variety.....	3.50
12A—50 large bulbs of at least 20 varieties and not over 4 bulbs of any one variety	2.75
12B—50 medium bulbs of at least 20 varieties and not over 4 bulbs of any one variety	1.75
13A—100 large bulbs—10 varieties—10 of a variety.....	5.00
13B—100 medium bulbs—10 varieties—10 of a variety.....	3.00
14A—50 large bulbs—5 varieties—10 of a variety.....	2.50
14B—50 medium bulbs—5 varieties—10 of a variety.....	1.50

Collections 11, 12, 13 and 14 will include as good a range of color as the number of varieties will permit and not mostly pink, or mostly red, etc.

With each order for 100 bulbs of any collection I will include extra of my choice and *labeled* at least \$1.00 value in either a \$1.00 bulb, two 50-cent bulbs, or four 25-cent bulbs. Transportation on these collections is paid by me in accordance with terms stated in front of this catalog.

SPECIAL ATTENTION—After April 1st, when I start planting, I may not be able to give the full range of varieties in each collection as above listed, but will do the best I can at time order is received.

15—Miniatures—No miniatures or class 200 varieties will be used in above. If interested in a mixture of these, write for price and state quantity desired and I will tell you what I have available at the time and price.

Wholesale Prices on Bulbs and Prices on Bulblets by Measure

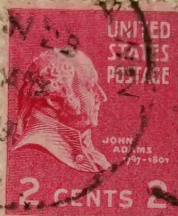

I do not have sufficient quantities of various varieties to justify the issuance of a wholesale list. However, I do have sufficient quantities of some varieties so that I can offer wholesale in lots of 25 to 100 bulbs and in a few instances several hundred. Likewise in some varieties I can offer bulblets in half pints to quarts and in a few instances several quarts. These prices will be most attractive. Those varieties which I have to offer in these larger amounts are marked*by the bulb price and bulblet price columns respectively. If interested in any of these, please write for prices stating particular varieties and amounts in which you are interested.
